Summers & Crebs,
Funeral directors, Boise, Ida.

Dear Sirs,

In giving you the information for the death certificate of my father D. W. Williams, I was mistaken in the place of birth as well as the date of birth. We will have to have this corrected before we can collect his life insurance, and so I am writing to you to get you to send me a correcting affidavid so that I can send it in, with my corrected affidavid, to the Insurance company.

Will you please have the death certificate changed also.

The correct date of birth is April 14, 1851 making him 78 instead of 79, as I told you. He was born in Wales and came to this country when only six months old.

Please have this attended to as quickly as you can as we are holding other papers until we hear from you.

Please let me know how much it will be to have the death Certificate changed and the corrective affidavid made out and I will mail you a check for the ammount.

I Will appreciate this very much and thank you in advance, also for your kindness.

Yours truly

Mrs. J. J. Beale

A stillbirth must be registered both as a birth and a death. The date of death should be the date of delivery and the death certificate should further state, if known, the cause of the stillbirth and the period of utero gestation in months.

STATEMENT OF OCCUPATION.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer, Physician, Stenographer, Compositor, Architect, Locomotive engineer, Civil engineer, Stationary fireman, etc.* But in many cases, especially in industrial employments, it is necessary to know (*a*) the kind of work and also (*b*) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (*a*) *Spinner,* (*b*) *Cotton mill;* (*a*) *Salesman,* (*b*) *Grocery;* (*a*) *Foreman,* (*b*) *Automobile factory.* The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc., without more precise specifications, as *Day laborer, Farm laborer, Laborer—Coal mine,* etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers,* who receive a definite salary), may be entered as *Housewife, Housework,* or *At home,* and children, not gainfully employed, as *At school* or *At home.* If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business that fact may be indicated thus: *Farmer (retired 6 yrs.)* For persons who have no occupation whatever, write *None.*

STATEMENT OF CAUSE OF DEATH—Name, first the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid Pneumonia") *Lobar pneumonia; Bronchopneumonia* ("Pneumonia," unqualified, is indefinite); *Tuberculosis of lungs, meninges, peritoneum,* etc., *Carcinoma, Sarcoma,* etc., of .....(name origin; "Cancer" is less definite; avoid use of "Tumor" for malignant neoplasms; *Measles; Whooping cough; Chronic valvular heart disease; Chronic interstitial nephritis, etc.* The contributory (secondary or intercurrent affection need not be stated unless important. Example: *Measles* (disease causing death), *29 ds.; Bronchopneumonia* (secondary), *10 ds.* Never report mere symptoms or terminal conditions, such as "Asthenia," "Anaemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility," ("Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart failure," "Hemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uraemia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify as "PUERPERAL *septicemia,*" "PUERPERAL *peritonitis,*" etc., all diseases resulting from childbirth or miscarriage. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, or HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning; struck by railway train—accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide.* The nature of the injury, as fracture of skull, and consequences (e. g. *sepsis, tetanus*) may be stated under the head of "Contributory."

N. B.—Every item of information should be carefully supplied. AGE should be stated EXACTLY, PHYSICIANS should state CAUSE OF DEATH in plain terms, so that it may be properly classified. Exact statement of OCCUPATION is very important. See instruction on back of certificate.

MARGIN RESERVED FOR BINDING

WRITE PLAINLY, WITH UNFADING INK—THIS IS A PERMANENT RECORD

N. B.—Every item of information should be carefully supplied. AGE should be stated EXACTLY, PHYSICIANS should state CAUSE OF DEATH in plain terms, so that it may be properly classified. Exact statement of OCCUPATION is very important. See instructions on back of certificate.

A stillbirth must be registered both as a birth and a death. The date of death should be the date of delivery and the death certificate should further state, if known, the cause of the stillbirth and the period of utero gestation in months.

STATEMENT OF OCCUPATION.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., **Farmer, Physician, Stenographer, Compositor, Architect, Locomotive engineer, Civil engineer, Stationary fireman, etc.** But in many cases, especially in industrial employments, it is necessary to know (a) the kind of work and also (b) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (a) **Spinner,** (b) **Cotton Mill;** (a) **Salesman,** (b) **Grocery;** (a) **Foreman,** (b) **Automobile factory.** The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer, etc., without more precise specifications, as **Day laborer, Farm laborer, Laborer—Coal mine, etc.** Women at home, who are engaged in the duties of the household only (not paid **Housekeepers,** who receive a definite salary), may be entered as **Housewife, Housework,** or **At home,** and children, not gainfully employed, as **At school** or **At home.** If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business that fact may be indicated thus: **Farmer (retired 6 yrs.)** For persons who have no occupation whatever, write **None.**

STATEMENT OF CAUSE OF DEATH—Name, first the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: **Cerebrospinal fever** (the only definite synonym is "Epidemic cerebrospinal meningitis"); **Diphtheria** (avoid use of "Croup"); **Typhoid fever** (never report "Typhoid Pneumonia") **Lobar pneumonia; Bronchopneumonia** ("Pneumonia," unqualified, is indefinite); **Tuberculosis of lungs, meninges, peritoneum,** etc., **Carcinoma, Carcoma,** etc., of .....(name origin; "Cancer' is less definite; avoid use of "Tumor" for malignant neoplasms; **Measles; Whooping cough; Chronic valvular heart disease; Chronic interstitial nephritis,** etc. The contributory (secondary or intercurrent affection need not be stated unless important. Examples: **Measles** (disease causing death), **29 ds.; Bronchopneumonia** (secondary), **10 ds.** Never report mere symptoms or terminal conditions, such as "Asthenia," "Anaemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility," ("Congental," "Senile," etc.), "Dropsy," "Exhaustion," "Heart Failure," "Hemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uraemia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify as "PUERPERAL septicemia," "PUERPERAL peritonitis," etc. all diseases resulting from childbirth or miscarriage. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, or HOMICIDAL, or as probably such, if impossible to determine definitely. Examples: **Accidental drowning; struck by railway train —accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide.** The nature of the injury, as fracture of skull, and consequences (e. g. **sepsis, tetanus**) may be stated under the head of "Contributory."

Dear Doctor:

Idaho, as you no doubt are aware, is in the United States Death Registration Area and we are required to furnish transcripts of death certificates to the Census Bureau in Washington. When the certificates are incomplete so they are unable to compile their statistics properly, they are returned to us with the request that we secure the information desired.

We are asking for some further information on the certificate mentioned below and enclose herewith an addressed penalty envelope for which no postage is required for your convenience in returning this letter with the information desired. Kindly cooperate by giving us this information as soon as possible so we will not be bothering you by writing again in reference to this certificate.

Respectfully yours,

G. K. Macey

Special Agent, Bureau of Census.

In reference to the death certificate of:

Sylvester Greenfield who died July 8, 1929.

Information DESIRED in order to complete certificate.

Was he single, married, widowed, or divorced?
